Our Story

More than 60 years have passed since just 10 Leon County school teachers founded Envision Credit Union. In February of 2016, we merged with FOCUS Credit Union, headquartered in Chattahoochee, FL. In August of 2017, we further expanded our mission and community involvement by merging with Rose City Federal Credit Union headquartered in Thomasville, GA.

What began as a modest attempt to match the savings needs of some members to the borrowing needs of others has become a full-service financial institution. We now serve more than 55,000 members at 12 locations across North Florida and South Georgia, and around the world via the internet.

Throughout our history, the outward, visible part of the Credit Union has changed, but the underlying principles remain the same – a not-for-profit, financial institution providing related services to members at the lowest possible cost. Read on to discover why you should make the switch today.
